

# Impact

AI4ALL creates more informed, connected, and inclusive communities. By fostering intergenerational learning and youth-led action, the project strengthens digital confidence, promotes ethical tech use, and ensures no one is left behind in the digital transformation.

Corpo Europeu de Solidariedade

Youth Solidarity Through Ethical Tech  
& Digital Inclusion

AI 4ALL is a local European Solidarity Corps project that will take place in Mira between March 2026 and February 2027.

2025-3-PT02-ESC30-SOL-000376293

# Context

In a rapidly evolving digital world, many people are still excluded from technology and AI knowledge. In rural areas like Mira, older generations, migrants, and young people often face digital barriers, lack of access, or limited understanding of how technology and algorithms affect their daily lives.

Digital Inclusion

Ethical AI education

Cybersecurity awareness

## Key Focus

## Objective

The objective of AI4ALL is to empower young people and community members with accessible digital skills, critical thinking, and confidence to navigate AI-driven technologies safely, ethically, and independently.
